Criminology: The Chemistry of the Crime

Call to Action

- Academia
 - Focus first on the motivation using behavioral sciences and criminology
 - Shift from intervention and response to prevention
 - Define the value of technology and countermeasures in terms of the impact on prevention
- Industry
 - Discuss the topic with governments and non-governmental organizations
 - Risk assessment shift to vulnerability assessment
 - Food Fraud Prevention focus
 - Consider all types of fraud not just adulterants
 - Begin by focusing on prevention not detection
- Governments
 - Define Food Fraud rather than only addressing adulterants in laws not just in guidance documents
 - Create and engage public-private partnerships
 - Assess Food Fraud separately from Food Safety and Food Defense
